

FORUM

FORUM nõupidamislauade süsteemi kuulub palju erineva pikkuse ja figuuriga laudu. Nõupidamislauad on selgepiirilise disainiga ja sobivad teiste tooteseeriatega.

Viimistlustena on võimalikud nii spoon- kui melamiinlahendused. Laudade metallkarkass on saadaval pulbervärvituna. Vajadusel saab laudu varustada integreeritud elektri- ja võrguühendussüsteemiga.

FORUM
DESIGN BY KATRIN SOANS

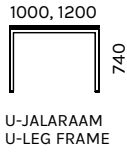

The **FORUM** conference tables system includes many tables with different length and figure. The conference tables have a clear-cut design and are suitable with other product ranges.

For finishing we offer veneer as well as melamine solutions. The metal base of the table is available in powder coated. If necessary, the tables can be equipped with integrated electricity and network connection system.
