

# HAI

**HAI** is a single high-backed armchair which can be used to make sofas or placed in rows. The modules come in two widths: 90cm and 65cm. The wider chair can also be fitted with an armrest. The armrest and headrest are separate parts, allowing a more flexible choice of cover materials.

**HAI** on kõrge seljatoega üksik tugitool, millest saab moodustada ka diivaneid ja rivilahendusi. Moodulid on kahes laiuses: 90cm ja 65cm. Laiemale toolile saab liita ka käetoe. Käe- ja peatugi on lahtised elemendid, mis annavad võimaluse paindlikumalt valida kattematerjale.

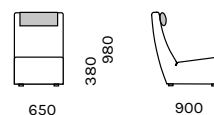

Design **Katrin Soans**
