

PIANO

PIANO on modernse ja minimalistliku disainiga büroomööbliseeria, millel on palju võimalusi erineva funktsionaalsuse ja stiiliga töökohtade moodustamiseks. Valikus on statsionaarse kõrgusega, mehhaaniliselt ja elektriliselt reguleeritavad töölauad. Lähimõeldud tootelahendused sobivad hästi nii kabinettidesse kui ka avatud planeeringuga büroodesse.

Design Katrin Soans

PIANO is an office furniture range with a modern and minimalist design that offers numerous opportunities for the creation of workplaces with different functionalities and styles. The range includes desks with stationary height as well as desks that are mechanically and electrically adjustable. The well thought-out product solutions work well in small rooms as well as open-plan offices.

PIANO EL tooteperekonda kuuluvad tänapäevased, elektriliselt reguleeritavad töölauad. Minimalistliku disaini joonega T-jalaraamil laua kõrgust on lihtne reguleerida selle küljes oleva puldi, nutiseadme või arvuti abil. Uuenduslikud lahendused aitavad kasutajal parandada oma istumisharjumusi, saates kasutaja seadmesse meeldetuletusi, millal on aeg püsti seista ning annavad tagasisidet tulemuste kohta puldi, mobiiltelefoni või arvuti abil.

The **PIANO EL** product range consists of modern desks with electrically adjustable height. The height of the desk supported by a minimalist T-leg frame is easy to adjust with the attached control, a smart device or computer. Innovative solutions help the user correct their sitting habits by sending reminders to user's device, telling them when it is time to stand up and giving feedback about results.

Baasvarustuses oleva lihtsalt kasutatava lüliti on töölauale kaks mälupositsiooni. Lisaks on võimalus Bluetooth'iga laud arvuti või nutiseadmega ühendada.

Basic intuitively usable control has 2 memory positions and possible to control the desk from computer or mobile devices via Bluetooth.

Lisana tellitava LSLDPGIC lüliti on 4 mälupositsiooni, kõrguse näidik ja meeldetuletused istumisharjumuste parandamiseks. Lisaks on võimalus Bluetooth'iga laud arvuti või nutiseadmega ühendada.

Optional LSLDPGIC control has 4 memory positions, display with height and integrated reminders to improve your sitting habits. Also possibility to control the desk from computer or mobile devices via Bluetooth.

Desk Control rakendus võimaldab lauda juhtida läbi arvuti või nutiseadme, annab tagasisidet laua kasutamise kohta ja saadab märguandeid, et kasutajal oleks meele oma istumisharjumusi parandada.

Desk Control app allows to control desk from computer or mobile devices, track usage of the desk, and send notifications to users to improve their sitting habits.

Töölaudade voolutarve ooterežiimil väiksem kui 0,1W, viies CO₂ emissiooni taseme miinimumini. Standby power consumption as low as <0.1W – reducing CO₂ emissions to an absolute minimum.

Kokkupõrkekaitse sensorid seiskavad laua liikumise kui selle teekond on takistatud ja väldivad kahju esemetele ning inimestele. Anti-collision sensors stop the movement of desk to prevent damage to people or objects.
