

REY

REY sorteerimiskapid annavad mugava võimaluse kontoris tekkivate jäätmete sorteerimiseks, et neid oleks lihtsam ümbertöötlemisele saata ja seeläbi prügi vähenemisele kaasa aidata. **REY** sorteerimiskapid on soliidsed, multifunktsionaalsed ning peidavad ära inetud prügikonteinerid, et hoida kontori esinduslikku üldmuljet. Hea võimalus mõelda praktiliselt ja käituda roheliselt!

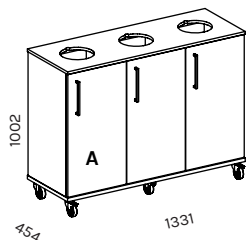

Most of the waste generated in the office can be recycled if previously sorted and thus it can be given a new life. **REY** sorting cabinets are solid, hide the ugly garbage containers and offer various options according to the needs of the office. Think green!
