

FORUM

FORUM nõupidamislaudade süsteemi kuulub palju erineva pikkuse ja figuuriga laudu. Nõupidamislaud on selgepiirilise disainiga ja sobivad teiste tooteseeriatega.

Viimistlustena on võimalikud nii spoon- kui melamiinlahendused. Laudade metallkarkass on saadaval pulbervärvituna ja kroomituna. Vajadusel saab laudu varustada integreeritud elektri- ja võrguühendussüsteemiga. Emotsionaalsust pakub laudadesse paigutatud lillewann.

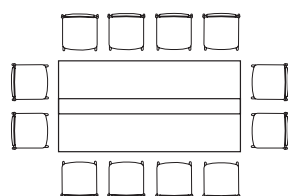

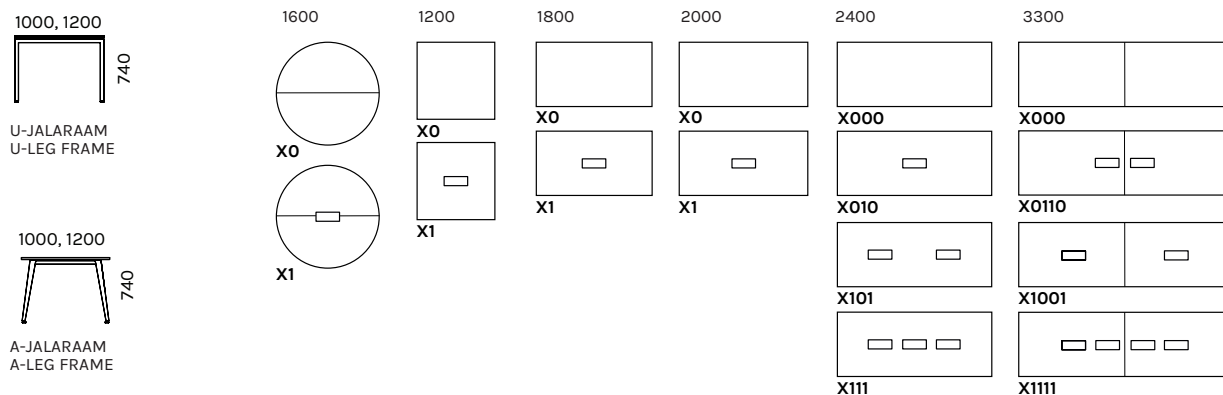

Design Katrin Soans

The **FORUM** conference tables system includes many tables with different length and figure. The conference tables have a clear-cut design and are suitable with other product ranges.

For finishing we offer veneer as well as melamine solutions. The metal base of the table is available in powder coated as well as chromed versions. If necessary, the tables can be equipped with integrated electricity and network connection system. Emotionality is added to the tables through a flower vessel installed into the tables.
