Design Eero Jürgenson

A new generation of modular shelving to help you organize the room perfectly. **SCALA** is ideal for use on the wall as well as in the middle of the room, as basic modules are horizontally reversible, the shelving can be accessed from one or both sides.

The shelving can be assembled easy and quickly and, if desired, combined to different heights and widths. Thanks to smart dovetail joints, re-arranging is extremely simple and requires no tools.

Uue põlvkonna kargriiul on suurepärase ruumiorganiseerija. **SCALA** sobib ideaalselt kasutamiseks ka ruumi keskel, sest ligipääs on mõlemalt küljelt. Põhimooduleid saab asetada riiulisüsteemi emba-kumba pidi. Kargriiuli saab väga lihtsalt kokku panna ja vajadusel sama kiiresti ümber kombineerida: erinevaks kõrguse, pikkuse või astmelisusega riiuliks-ruumijagajaks. Tänu nutikale tappühendusele on ehitamine tööriistavaba.
