

# ART

ART on muudetava kõrgusega töölaud. Laua jalgade- ja püstise ekraani geomeetrilist vormi on inspireerinud J. Koorti skulptuur "Kits". Laua plaat ja jalad on meie metsades kasvanud kase naturaalsest vineerist. Laua tööpind on kaetud inimsõbraliku pehme mööblilinooleumiga. Rõhku on pandud laua maksimaalsele stabiilsusele.

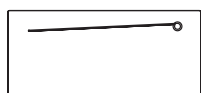

ART is a work desk of adjustable height. The geometric shape of the table's legs and its upright screen are inspired by J. Koort's sculpture Goat. The board and legs of the desk are made of natural plywood from birch grown in our forests. The work surface of the desk is covered with human-friendly soft furniture linoleum. Emphasis has been placed on the maximum stability of the table.

Design **Eero Jürgenson**  
Painting J. Piho "La dolce vita"
