CRATE EL

The CRATE EL is an electric height-adjustable office desk, available with one or three workplaces. Its rounded shape and distinctive design offer a refreshing alternative to conventional square-edged desks.

The T-leg electric frame allows easy height adjustment from 610 to 1260 mm through a convenient remote control mounted to the desk. Sit-stand functionality encourages movement and posture variation, helping to reduce strain and promote overall well-being during extended work periods.

For added flexibility, cable access holes can be positioned on the tabletop, making it easy to integrate power and data connections directly into the work surface.

Drawer units on wheels, side cabinets, and other elements from the PIANO and SERIE product families complement CRATE desks perfectly. You can also enhance your CRATE desk with PIANO front panels and acoustic partitions from the SOFT or MUTEK collections.

DESK CONTROL APP

Desk Control app allows to control desk from computer or mobile devices, track usage of the desk, and send notifications to users to improve their sitting habits.

SUSTAINABLE CHOICE

Our electric frames are fully PVC-free and LINAK ZERO technology keeps standby power consumption as low as <0.1W – reducing CO₂ emissions to an absolute minimum.

ANTI-COLLISION SENSOR

Anti-collision sensors stop the movement of desk to prevent damage to people or objects.
