

KOKO

KOKO on stiilne naturaalsest tammepuidust jalgadel laud, mis sobib ideaalselt nõupidamislauaks või söögilauaks. Valikus on nii kandilised kui ümmargused lauad, nii istumiskõrgusega kui tänapäevased seisulauad. Lauaplaadile võib vajadusel lisada pistikupesad voolu- ja multimeediaühendustega.

Design Henri Viljarand

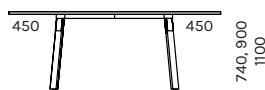

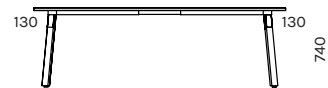

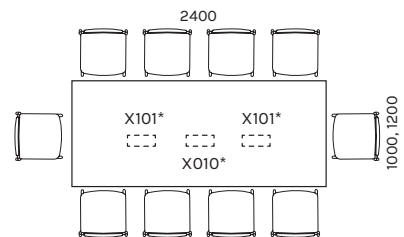

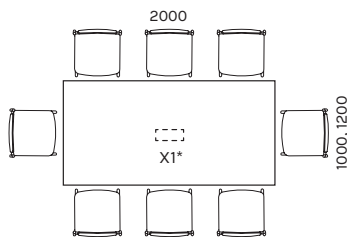

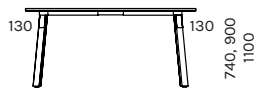

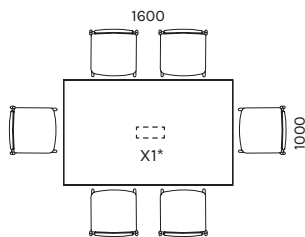

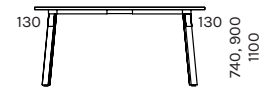

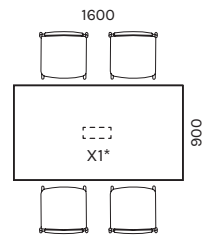

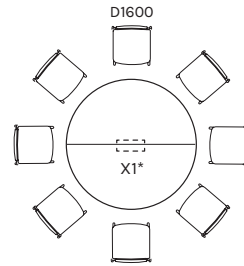

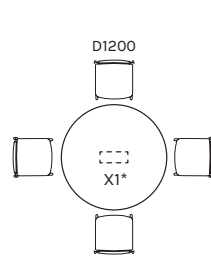

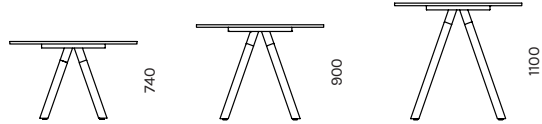

KOKO is a stylish table on legs made of natural oak, which is perfect as a meeting or dining table. The selection includes square and round tables as well as up-to-date stand-type tables with seating height. If necessary, sockets with power and multimedia connections can be added to the tabletop.
