

RAHN

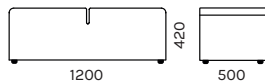

RAHN on erinevatest moodulitest koosnev istemööbli perekond, mis sobib suurepäraselt ootealadele, fuajeedesse ja muudesse avalikesse ruumidesse. Tumbadest on võimalik moodustada lõputult erinevaid kombinatsioone ja istumisasid. Valida saab ka erinevate lisade vahel nagu lauakesed ja käetoed, mida võib täiendada elektripesade ja USB-laadijatega. Väiksematel ümmargustel tumbadel on küljes käepärane sang, millest neid on lihtne kanda ja ühest kohast teise liigutada.

Design Katrin Soans

RAHN is a modular seating system ideal for waiting areas, lobbies and other public places. Modules can be combined in different ways and compose various seating areas. Seats can be complemented with tablets or armrests, power outlets and USB chargers can be added as an extra option. Smaller round poufs have leather handle to make them easy to carry around from one place to another.
