

SERIE

Design Katrin Soans

SERIE is a functional system of cabinets that can be combined with all items from the Standard table series. Product family consists of modules that can be well combined with one another. **SERIE** gives one a chance to construct various different sets according to need.

SERIE on funktsionaalne kappide süsteem, mis sobib hästi kõikide Standardi lauaseeriatega. Sari koosneb omavahel mugavalt kombineeritavatest moodulitest ja võimaldab moodustada vastavalt vajadusele väga erinevaid komplekte.
