TÖÖTU
WORK

Endless on silmapaistev nutikas ruumijagaja, mis avab ukse lõpututele variatsioonidele ja uuenduslikele lahendustele kontori kujundamisel. Endless ületab tavalise ruumijagaja piirangud, andes kasutajatele võimaluse kohandada oma keskkonda vastavalt individuaalsetele vajadustele ja stiilieelistustele. Unikaalne disain võimaldab kombineerida erinevaid mooduleid.

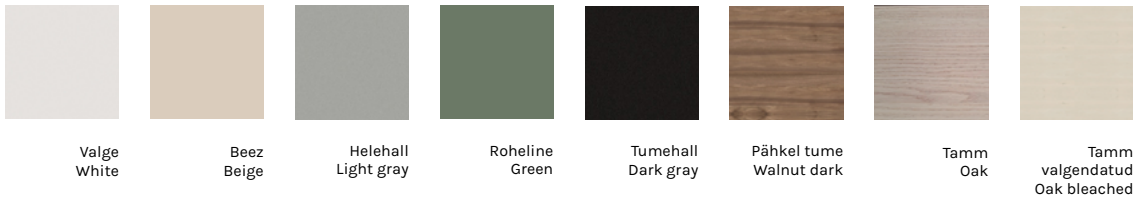

Endless is a smart space divider that allows literally "endless" variations. This container defies the dull appearance of cabinets and structures space. Doors can be mutual on both sides in order to be stand alone in a space or against the wall.
