The product is cleaned with lukewarm PH-neutral soapy water and a soft cloth or soft brush. Wipe with a damp cloth afterwards. Do not use solvents or chemical cleaners. Alcoholic disinfectants can dry out the artificial leather. Any stains from ink, wine, coffee, oil, grease and coloring pigments from textiles must be removed immediately.

Please note that Nevotex does not accept complaints due to substandard maintenance or dry folding from jeans and other textiles.

Since this is a PVC product, a water-based contact adhesive should be used when gluing.
